Subject: Application for MA Scholarship – Management in Technological Systems

Dear Sir/Madam,

I am writing to apply for the free scholarship opportunity offered by the Ethiopian Nuclear Energy Commission (ENEC) for study programs in Russia for the 2026/27 academic year.

I am a Computer Science graduate from Debre Berhan University with a CGPA of 3.47/4.0 and an outstanding National Exit Exam score of 88%. I am motivated to advance my career in science and technology and contribute to national development.

Although my background is in Computer Science, I have strong analytical, programming, and problem-solving skills, and I am eager to expand into technological and engineering systems aligned with this program.

I am disciplined, adaptable, and committed to academic excellence in a global learning environment. I believe this opportunity will enable me to contribute meaningfully to Ethiopia's technological advancement.

I respectfully submit my application for your consideration and have attached all required documents.

Thank you for your time and consideration.

Sincerely,

Temesgen Gosaye Reta
